

# PRISM Implementation Status

# PRISM Implementation Summary

## Expanded PRISM

- State meets all 12 PRISM implementation requirements
- Requirements are implemented by CMV registration agencies
- Focus on non-IRP vehicles or weighted between 10,001 to 26,000 lbs

## Enhanced Participation

PRISM Implementation Requirements 7-12

**7.** Legislative or administrative authority to deny registration for reincarnated carriers

**8.** Check VIN against PRISM Target data for OOS affiliation

**9.** Implement a process to identify a reincarnated carrier

**10.** Deny registration for reincarnated carriers or request VIN removal from PRISM Target data

**11.** Set 950 status codes to suspend vehicles in SAFER

**12.** Certify PRISM cab card barcode

## Full Participation

PRISM Implementation Requirements 1-6

**1.** Legislative or administrative authority to deny/suspend for carriers under Federal OOS

**2.** Collect/validate USDOT and TIN number of MCRS

**3.** Check OOS status before registration (Deny)

**4.** Check OOS status daily during registration (Suspend)

**5.** Upload vehicle registration information to SAFER

**6.** Report quarterly denials and suspensions

## Partial Participation

- State does not meet all Full Participation requirements

## Optional Program Enhancements

- ◇ Use real-time PRISM Web Services in addition to the daily Target and/or Census file(s) for registration application
- \* Retrieve license plates from motor carriers whose registration has been suspended due to Federal OOS order
