Annual Report Form (Class I Motor Carriers of Passengers)

Worksheet for Calculating Carrier Classification

What is this about?

This is to help you determine your carrier classification, which affects the reporting requirements of Form MP-1.

Carrier classification and reporting requirements

Motor carriers of passengers are classified based on their adjusted annual operating revenue. Carrier classification, in turn, determines what reports are required by FMCSA. We are providing the worksheet below for your convenience to help you calculate your carrier classification. If your classification has changed or is incorrect, please contact us. We will make any necessary adjustments and give you further instructions on any filing requirements.

Classification	Adjusted Annual Operating Revenue	Report Required by Law
Class I	\$5 million or greater	Form MP-1
Class II	Less than \$5 million	None. Do not complete Form MP-1.

How to calculate your carrier classification

Upward and downward classification will be effective as of January 1 of the year immediately following the **third consecutive year** that your revenue qualifies. The steps in calculating your carrier classification are as follows:

1. Calculate your annual operating revenues. This is revenue from passenger motor carrier operations, including *interstate*, *intrastate*, and *local* service.
2. Multiply this figure by the revenue deflator. In Table 1, we have calculated the revenue deflator for you. The revenue deflator is the 1994 average producer price index of finished goods (PPI) divided by the revenue year's average PPI, as shown in Table 2. Table 3 is an example calculation: this carrier would be classified as Class I because of its 2013 revenue; if 2014 revenue was less than \$5 million, it would be reclassified as Class II in 2015.

Table 1

Year	Annual Operating Revenue	× Revenue Deflator	= Adjusted Annual Operating Revenue
2011	\$	0.87	\$
2012	\$	0.91	\$
2013	\$	0.88	\$

Table 2

Year	Producer Price Index (PPI)	Revenue Deflator
1994	125.5	1.00
2011	190.5	0.87
2012	194.2	0.91
2013	196.6	0.88

Table 3

Year	Annual Operating Revenue	× Revenue Deflator	= Adjusted Annual Operating Revenue
2011	\$5,795,000	0.87	\$5,041,650
2012	\$6,325,000	0.91	\$5,755,750
2013	\$6,655,000	0.88	\$5,856,400
