WORK ZONE SAFETY

SOCIAL MEDIA PLAYBOOK

General & Georgia State Messaging
How to Use This Playbook

This social media playbook supports work zone safety efforts led by the Federal Motor Carrier Safety Administration (FMCSA). It includes specific content and assets, along with publishing instructions, that address drivers about practicing safe driving, especially in and around work zones. The content in this playbook is designed for easy posting and seamless integration into your current social media strategy.

Initiative Overview

Work Zone Safety Summary

Work zones present unique challenges for large trucks and buses like narrow lanes, sudden stops, traffic pattern shifts, and uneven road surfaces. In addition to the unique conditions presented by these areas, large trucks and buses also deal with large blind spots, long stopping distances, and size constraints, which makes maneuvering large trucks and buses in work zones particularly challenging.

On average, large trucks are overrepresented in work zone crashes—over 33% of fatal crashes in 2019 involved CMVs (Source: National Work Zone Safety Information Clearinghouse). CMV drivers need to take precautions when driving through these areas and passenger vehicles should be mindful of these challenges for large trucks and buses.

The goal of this initiative is to inform drivers—both CMV drivers and other motorists—of how to share the road safely in work zones as they travel across the country.

Publishing Strategy

Work zone safety messaging can be posted at any time of the year. However, the summer months often present an uptick in road construction work, making it all the more important to post during these times.

Below are relevant hashtags to use when posting about work zone safety:

- #WorkZoneSafety
- #OurRoads
Social Media Content

This section contains shareable social media content to help spread the word about work zone safety. There are three different graphics that can be used with any message to help spread awareness on work zone safety. Suggested posts are provided on pages 8-13 that you can use or use as inspiration when sharing the graphics on your own social media channels.

The following pages provide additional graphics and post examples in a variety of sizes for the campaign. Be sure to consider which social media platform your target audience typically uses when choosing the graphics and post content. Also, take into consideration that most people use mobile phones when checking their social media accounts. The graphics in this playbook are optimized for mobile platforms.
Content Organization

The social media content is organized into sections based on language.

- General Market English – Pg. 8
- General Market Spanish – Pg. 9
- Georgia Specific English – Pg. 11
- Georgia Specific Spanish – Pg. 12

Post Examples

Here are examples of how posts should look when published.

   - Work zones present challenges for all drivers, particularly CMV drivers. When traveling through work zones, reduce your speed, pay close attention to signs and signals, and always be prepared to stop. It's everyone's responsibility to share the roads! #WorkZoneSafety #OurRoads

   - GPS apps and similar resources can help you be aware of upcoming work zones before you hit the road. When possible, research your route ahead of time and use detours or alternative roads to avoid these areas if needed. #WorkZoneSafety #OurRoads

   - When driving a large truck through a work zone, be aware of passenger vehicle drivers who may not know the challenges you face maneuvering a large vehicle. Exercise caution and share the road safely. Learn more tips: [https://bit.ly/3rFbTvY](https://bit.ly/3rFbTvY) #WorkZoneSafety #OurRoads

   - If you need to stop or slow down in a work zone, it’s important to use your emergency flashers to alert drivers behind you. Do your part and share the road safely. Learn more tips: [https://bit.ly/3rFbTvY](https://bit.ly/3rFbTvY) #WorkZoneSafety #OurRoads

   - As you approach lane closures, check your blind spots and move into the open lane as soon as possible. Share the road safely in work zones. Learn more tips: [https://bit.ly/3rFbTvY](https://bit.ly/3rFbTvY) #WorkZoneSafety #OurRoads

   - Help prevent rear-end crashes in work zones by obeying all speed limits, avoiding distractions, and maintaining extra space between your CMV and the vehicle in front of you. Learn more tips: [https://bit.ly/3rFbTvY](https://bit.ly/3rFbTvY) #WorkZoneSafety #OurRoads

As drivers travel the thousands of miles of Georgia roadways every day, they will likely interact with work zones along the way. Stay alert, give room, and slow down as you approach work zones—share the road safely. #WorkZoneSafety #OurRoads

Georgia has many active work zones across the state. Obey all speed limits, avoid distractions, and maintain extra space between your vehicle and others to keep these areas safe for all. #WorkZoneSafety #OurRoads

Georgia ranks 4th in the country for fatal crashes involving CMVs in work zones. It's everyone's responsibility to share the road safely—slow down and be prepared to stop to help reduce these crashes and protect all drivers, including yourself. #WorkZoneSafety #OurRoads

Georgia saw 14 work zone crashes involving a CMV in 2019, resulting in 15 fatalities. Prevent further crashes and deaths by slowing down, avoiding distractions and following all traffic laws. #WorkZoneSafety #OurRoads

Nearly half of all fatal work zone crashes involving CMVs in Georgia are rear-end collisions. Make sure there is extra space between you and other vehicles and always slow down to share the road safely. #WorkZoneSafety #OurRoads

Data in these social media messages are sourced from a combination of the following:

- The National Highway Traffic Safety Administration's (NHTSA) Fatality Analysis Reporting System (FARS)
- The Georgia Department of Transportation (GDOT):
  - Project Tracker
  - Georgia Freight Facts
  - 2020 Work Zone Fact Sheet
- The National Work Zone Safety Clearinghouse (Georgia)

Georgia tuvo 14 choques en zonas de construcción que involucró al menos a un vehículo comercial en el 2019, provocando 15 muertes. Evite más choques y muertes al reducir la velocidad, evitar distracciones y respetar todas las leyes de tránsito. #WorkZoneSafety #OurRoads

Casi la mitad de los choques fatales en zonas de construcción que involucran vehículos comerciales en Georgia son choques traseros. Asegúrese de dejar espacio entre usted y otros vehículos y reduzca la velocidad para compartir la vía de forma segura. #WorkZoneSafety #OurRoads
