PRISM Implementation Status

- **Expanded PRISM**
- **Enhanced Participation**
- **Full Participation**
- **No Participation**

◊ Real-time PWS for registration
* Retrieve suspended plates

The map illustrates the status of PRISM implementation across various states in the United States. The states are color-coded to indicate their participation level in the PRISM program.
States may increase their effectiveness and safety by applying PRISM’s optional upgrades at any level of participation by:

◊ Using real-time PRISM Web Services in addition to the daily Target and/or Census file(s) for registration application
* Retrieving license plates from motor carriers whose registration has been suspended due to Federal OOS order
