

## **Motor Carrier Safety Advisory Committee (MCSAC)**

### **Task Statement 23-1: The National Roadway Safety Strategy**

#### **I. Task Title**

Provide recommendations to FMCSA on opportunities to collaborate with stakeholders to gain their commitment to additional actions to improve commercial motor vehicle (CMV) safety.

#### **II. Background**

The U.S. Department of Transportation's (DOT) National Roadway Safety Strategy (NRSS) outlines DOT's comprehensive approach to significantly reducing serious injuries and deaths on our nation's highways, roads, and streets. It is the first step toward our long-term goal of achieving zero roadway fatalities. NRSS represents a department-wide approach to working with stakeholders across the nation to achieve this goal.

#### **III. Task**

MCSAC's input is valuable and essential to FMCSA's efforts to attain zero roadway fatalities. We request that you identify new actions that the Agency and its stakeholders should consider to help address the roadway safety challenge. FMCSA requests that MCSAC present data or information, where it is available, to support these consensus recommendations.

#### **IV. Estimated Time to Complete Task**

MCSAC should develop its recommendations to the Agency on Task 23-1 at its June 2023 meeting and submit a letter report to the Administrator by July 31, 2023.

#### **V. FMCSA Technical Representative**

Larry Minor, Associate Administrator for Policy, FMCSA, [larry.minor@dot.gov](mailto:larry.minor@dot.gov)
