

Use the **YOUR SAFETY JOURNEY** Video to Chart a Course to Safer Driving

Unsafe driving is the leading cause of crashes involving commercial motor vehicles (CMVs).*

Unsafe driving behaviors pose the potential for severe injuries and tragic human loss—and serious business impacts, from financial costs to legal liability.

Whether you're a new CMV operator, an experienced carrier who wants to prioritize safety, or a carrier that needs to address unsafe driving, this video provides a framework to help identify and understand unsafe driving risks, plan for a culture of safety, and put your safety plan into action.
