PRISM Implementation Summary

U.S. Department of Transportation
Federal Motor Carrier Safety Administration

Expanded Participation

PRISM Implementation Requirements 1-6, applied to all vehicles of 10,001+ pounds

States eligible for Expanded PRISM must meet all 12 PRISM Implementation Requirements.

1. Legislative or administrative authority to deny/suspend for carriers under Federal OOS

2. Collect/validate USDOT and TIN number of MCRS

3. Check OOS status before registration (Deny)

4. Check OOS status daily during registration (Suspend)

5. Upload vehicle registration information to SAFER

6. Report quarterly denials and suspensions

Enhanced Participation

PRISM Implementation Requirements 7-12

7. Legislative or administrative authority to deny registration for reincarnated carriers

8. Check VIN against PRISM Target data for OOS affiliation

9. Implement a process to identify a reincarnated carrier

10. Deny registration for reincarnated carriers or request VIN removal from PRISM Target data

11. Set 950 status codes to suspend vehicles in SAFER

12. Certify PRISM cab card barcode

Full Participation

PRISM Implementation Requirements 1-6

1. Legislative or administrative authority to deny/suspend for carriers under Federal OOS

2. Collect/validate USDOT and TIN number of MCRS

3. Check OOS status before registration (Deny)

4. Check OOS status daily during registration (Suspend)

5. Upload vehicle registration information to SAFER

6. Report quarterly denials and suspensions

Optional Upgrades For all Participation Levels

States may increase their effectiveness and safety by applying PRISM's optional upgrades at any level of participation by:

◇ Using real-time PRISM Web Services in addition to the daily Target and/or Census file(s) for registration application

* Retrieving license plates from motor carriers whose registration has been suspended due to Federal OOS order
