## Inspection Report Facsimile

### "Inspection Report Facsimile" Explained

The Inspection Facsimile Report displays information on reports of inspections that have been matched to a user-specified carrier. An Inspection Report Facsimile consists of all such information that relates to a single reported inspection. In order for an inspection to appear in a facsimile, it must have a status of 'complete'. All of the inspections appearing in an Inspection Facsimile Report belong to one and only one carrier. In requesting a report, the user specifies this carrier by providing its USDOT number. The user may restrict the inspections displayed in the report to those of a certain date range and/or state. For those inspections covered in a report, driver names may be either exhibited or excluded. Such information must not appear in reports that are disseminated to the public. In other situations, the decision of whether or not to include driver names is up to the user.

Each Inspection Facsimile Report consists of three sections: A cover page, a report summary, and the report's inspection facsimiles.

The cover page contains a brief, general description of the data included in the report and a disclaimer about the report's contents.

The first part of a summary displays the values of the report's user-entered selection criteria. These criteria are the USDOT number of the carrier whose inspections are to be covered, the beginning and ending dates (if specified) of the inspections to be included, the code for the state (if specified) in which the included inspections are to have been conducted, and whether or not driver names are to be a part of the inspection information shown. The remainder of a report summary provides an abbreviated overview of the inspections actually displayed later in full, within the individual Inspection Report facsimiles. For inspections and archived inspections separately, a brief synopsis is included here of each inspection item for which a facsimile has been created followed by the overall number of such items for which facsimiles have been generated.

The last section of the report provides detailed information about all qualifying inspections. The blocks of information in this section relating to individual inspections represent Inspection Report facsimiles. The information shown in each facsimile is subdivided as follows:

- 1. CARRIER IDENTIFICATION:** Provides information that profiles the carrier associated with the facsimile's inspection, such as the carrier's name and address, MC identification number (ICC docket number), state id number, shipping paper number, and operation type.
- 2. INSPECTION INFORMATION:** Provides identifying and other relevant information about the facsimile's inspection, such as the state where the inspection occurred, the identification number assigned to the inspection, the inspection's date, time, and location, whether a drug interdiction search and/or arrest occurred, and, if such information was requested by the user, the name of the driver involved.
- 3. HAZARDOUS MATERIAL (HM) INFORMATION:** Provides any hazardous material information associated with the facsimile's inspection, such as whether placards were required to warn of the presence of hazardous materials as well as data on each (if any) hazardous material that made up the inspected vehicle's cargo.
- 4. VEHICLE INFORMATION:** Provides a row of information for each vehicle unit that was part of the facsimile's inspection. The items appearing in a row here include vehicle unit number and type along with the vehicle's make, license tag number, license tag state, and decal number.
- 5. VIOLATION INFORMATION:** Provides a row of information for each violation that was part of the facsimile's inspection. The values appearing in a row here include the code for the specific violation involved, whether it was an out of service (OOS) violation, any special measures (defect verification) taken to correct an OOS violation, and whether the violation pertained to the vehicle's driver, co-driver, or one of its units.

### **BIENNIAL UPDATE REMINDER / WARNING NOTIFICATION**

Dear CHRISTOPHER FRY,

The Federal Motor Carrier Safety Administration (FMCSA) requires an update of your Motor Carrier Identification Report (MCS-150) form every two years (commonly known as the biennial update). This is required, even if your company's information has not changed or the company is no longer operating in interstate commerce.

"Interstate commerce" means trade, traffic, or transportation in the United States:

1. Between a place in a State and a place outside of such State (including a place outside of the United States); or
2. Between two places in a State through another State or a place outside of the United States; or
3. Between two places in a State as part of trade, traffic, or transportation originating or terminating outside the State or the United States.

FMCSA records indicate registration information for USDOT Number XXXX091 was last updated on January 30, 2019. Pursuant to 390.19(b)(2), its biennial update is due on or before January 31, 2021.

Pursuant to 49 CFR 390.19(b)(4), failure to complete the biennial update consistent with the requirements of 49 CFR 390.19(b)(2), may result in the imposition of a civil penalty. See 49 USC 521(b)(2) and 49 CFR Part 386 Appendix B. Each day the violation continues constitutes a separate offense for which a separate penalty may be imposed. The total penalty for all offenses related to a single violation may reach the maximum civil penalty set forth in 49 CFR Part 386 Appendix B, paragraph (a)(1). Failure to complete the biennial update may also result in deactivation of USDOT Number XXXX091. There is no charge assessed to your company to complete the biennial update process.

An active USDOT Number is required for motor carrier transportation in interstate commerce. Transportation without USDOT Registration and an active USDOT Number is specifically prohibited. See 49 USC 31134 and 49 CFR 392.9b. Continued operations after deactivation of a USDOT number may result in additional civil penalties, in accord with 49 U.S.C. 521.

To complete an online biennial update, perform the following steps:

- a) Go to **<https://www.fmcsa.dot.gov/registration>**
- b) Click on **FMCSA Online Registration System**
- c) Under **Existing Registration Updates** click on the radio button next to the prompt **I need to update my USDOT number registration information or file my biennial update (MCS-150)**. Scroll to the bottom of the screen and then click **Continue**.
- d) When the **USDOT Number MCS-150 Update (Including Biennial)** informational screen is displayed, click **File Electronically** to continue the process.

- e) Enter your full USDOT Number, PIN, EIN/SSN, Company Official information, and then click **Continue**. For your convenience, your PIN has been provided at the top of this letter.
- f) When the FMCSA Company Verification screen is displayed, verify the data and then click **Continue**.
- g) Enter all required valid credit card information and then click **Submit**.
- h) When your record is displayed, verify and/or correct the information on the electronic MCS-150 screens. Once all information has been verified and/or corrected, click **Modify**. You must click the **Modify** button in order for the biennial update to be completed. A confirmation screen will appear indicating your update to MCMIS has been accepted.
- i) Clicking on the **Generate MCS-150 Go** button allows you to print out a completed copy of the updated MCS-150 for your records.

For applicants without Internet access, FMCSA can mail instructions, forms, and other materials designed to assist in the off-line biennial update process. Please contact FMCSA support services at 1-800-832-5660 for assistance. Hard copy forms may be filed using one of the two options below:

**Option 1: Filing Application by Mail**

Federal Motor Carrier Safety Administration  
Attention: USDOT Number Registration Biennial Update  
1200 New Jersey Ave. S.E. (MC-ECE)  
Washington, D.C. 20590

**Option 2: Filing Application by Fax**

Fax completed application to: 202-366-3477  
Attention: USDOT Number Registration Biennial Update

The hard copy form must be received by FMCSA on or before January 31, 2021 to avoid deactivation of your USDOT number and the assessment of civil penalties.

Thank you for your prompt attention to this very important matter.

Sincerely,

Dr. G. Kelly Regal  
Acting Director, Office of Registration and Safety Information

### **BIENNIAL UPDATE REMINDER / WARNING NOTIFICATION**

Dear CHRISTOPHER FRY,

The Federal Motor Carrier Safety Administration (FMCSA) requires an update of your Motor Carrier Identification Report (MCS-150) form every two years (commonly known as the biennial update). This is required, even if your company's information has not changed or the company is no longer operating in interstate commerce.

"Interstate commerce" means trade, traffic, or transportation in the United States:

1. Between a place in a State and a place outside of such State (including a place outside of the United States); or
2. Between two places in a State through another State or a place outside of the United States; or
3. Between two places in a State as part of trade, traffic, or transportation originating or terminating outside the State or the United States.

FMCSA records indicate registration information for USDOT Number XXXX091 was last updated on February 2, 2021. Pursuant to 390.19(b)(2), its biennial update is due on or before January 31, 2023.

Pursuant to 49 CFR 390.19(b)(4), failure to complete the biennial update consistent with the requirements of 49 CFR 390.19(b)(2), may result in the imposition of a civil penalty. See 49 USC 521(b)(2) and 49 CFR Part 386 Appendix B. Each day the violation continues constitutes a separate offense for which a separate penalty may be imposed. The total penalty for all offenses related to a single violation may reach the maximum civil penalty set forth in 49 CFR Part 386 Appendix B, paragraph (a)(1). Failure to complete the biennial update may also result in deactivation of USDOT Number XXXX091. There is no charge assessed to your company to complete the biennial update process.

An active USDOT Number is required for motor carrier transportation in interstate commerce. Transportation without USDOT Registration and an active USDOT Number is specifically prohibited. See 49 USC 31134 and 49 CFR 392.9b. Continued operations after deactivation of a USDOT number may result in additional civil penalties, in accord with 49 U.S.C. 521.

To complete an online biennial update, perform the following steps:

- a) Go to **<https://www.fmcsa.dot.gov/registration>**
- b) Click on **FMCSA Online Registration System**
- c) Under **Existing Registration Updates** click on the radio button next to the prompt **I need to update my USDOT number registration information or file my biennial update (MCS-150)**. Scroll to the bottom of the screen and then click **Continue**.
- d) When the **USDOT Number MCS-150 Update (Including Biennial)** informational screen is displayed, click **File Electronically** to continue the process.

- e) Enter your full USDOT Number, PIN, EIN/SSN, Company Official information, and then click **Continue**. For your convenience, your PIN has been provided at the top of this letter.
- f) When the FMCSA Company Verification screen is displayed, verify the data and then click **Continue**.
- g) Enter all required valid credit card information and then click **Submit**.
- h) When your record is displayed, verify and/or correct the information on the electronic MCS-150 screens. Once all information has been verified and/or corrected, click **Modify**. You must click the **Modify** button in order for the biennial update to be completed. A confirmation screen will appear indicating your update to MCMIS has been accepted.
- i) Clicking on the **Generate MCS-150 Go** button allows you to print out a completed copy of the updated MCS-150 for your records.

For applicants without Internet access, FMCSA can mail instructions, forms, and other materials designed to assist in the off-line biennial update process. Please contact FMCSA support services at 1-800-832-5660 for assistance. Hard copy forms may be filed using one of the two options below:

**Option 1: Filing Application by Mail**

Federal Motor Carrier Safety Administration  
Attention: USDOT Number Registration Biennial Update  
1200 New Jersey Ave. S.E. (MC-RS)  
Washington, D.C. 20590

**Option 2: Filing Application by Fax**

Fax completed application to: 202-366-3477  
Attention: USDOT Number Registration Biennial Update

The hard copy form must be received by FMCSA on or before January 31, 2023 to avoid deactivation of your USDOT number and the assessment of civil penalties.

Thank you for your prompt attention to this very important matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Kenneth H. Riddle". The signature is fluid and cursive, with the first name "Kenneth" being more prominent.

Kenneth H. Riddle  
Director, Office of Registration

**MCS-150s**
