If the Montana motor vehicle division did not receive these documents, the driver's licensing status would have been downgraded from "Commercial" to "Non-Commercial" status. All Intrastate and Non-Excepted Interstate CDL holders in Montana must keep a valid and current Medical Examiner's Certificate (MEC) with the Motor Vehicle Division. If a Commercial driver does not submit a new MEC on or before expiration date of their expiring MEC, their medical status will be changed to "Non-Certified" AND their CDL will be downgraded to "Non-Commercial". Incomplete or illegible certificates may be delayed in being entered on the record.</p> <p>Although we accept certificates by mail/fax/email, we would recommend that drivers use a new web application. They can sign into the application from www.wisconsincdl.gov. This application can be used to self certify and to upload a medical certificate. Certificates that are uploaded have to be in JPG, GIF, PNG, or PDF file types only and can't be over 5 MB.</p> <p>Any medical certificate that is emailed to the department will have to use the same file type and size restrictions used in the web application (JPG, GIF, PNG, or PDF file types only and can't be over 5 MB).</p>	<p>Driver would have to change their self certification to something other than Non-expected interstate or provide an updated medical certificate to the department. Once the updates are made on the record, the CDL will be put back to a valid status. No tests are required.</p>	<p>Wisconsin DMV</p>	<p>608-264-7049</p>	<p>dre.dmv@dot.wi.gov</p>
