**DISMISSAL OF APPLICATION ON REQUEST OF APPLICANT**

By request dated February 21, 2014, applicant seeks to withdraw its application for Federal Motor Carrier Safety Administration provisional authority to operate beyond the U.S. municipalities and commercial zones on the United States-Mexico border in the cross-border long-haul trucking pilot program. The request will be granted:

The application is dismissed. This decision will be effective 15 days from the service date.

If you currently have an existing valid OP-2 Certificate of Registration to operate in the U.S. municipalities and commercial zones of such municipalities on the United States-Mexico border, today's dismissal of your application for operating authority in the cross-border long-haul trucking pilot program will not impact your current commercial zone Certificate of Registration. In addition, you may submit a new application to participate in the cross-border long-haul program at any time prior to the pilot program's termination.

Sincerely,

Betsy Z. Benkowski  
Chief, West-Midwest Division  
Office of Registration and Safety Information
