Revised 04/13
Data you collect is used to calculate risk assessment, determine response methods, and develop regulations. Vehicles carrying hazardous materials are required to carry shipping papers containing the HM Class and ID number (or name). Your Accident or Collision Report/Supplement may ask the following hazardous materials questions (exact wording will vary by State):

1. DOES THE VEHICLE HAVE A HAZARDOUS MATERIALS PLACARD?  YES  NO

Placards should be on all four sides of the vehicle. For containers with bulk packages inside, if the required ID# marking is not visible, the transport vehicle must be marked on each side and each end.

2. ENTER THE FOUR-DIGIT NUMBER (OR NAME) FROM THE PLACARD  1 9 9 3

The four-digit number may be on an orange panel or a white “square-on-point” panel. If no four-digit number appears on the placard, enter the Placard Name.

3. ENTER THE HAZARDOUS MATERIALS CLASS NUMBER FROM THE BOTTOM OF THE PLACARD  3

The Class Number can be a one- or two-digit number with a decimal in the middle.  5.1

It is critical for identifying and studying various types of hazardous materials involved in traffic crashes.

4. WAS HAZARDOUS CARGO RELEASED?  YES  NO

The intent of this question is to determine whether any of the placarded material was released or escaped from its transport container into the environment. Fuel or oil carried by the vehicle for its own use is NOT considered cargo and should not be reported in this section.
