The application is dismissed. This decision will be effective 15 days from the service date.

If you currently have an existing valid OP-2 Certificate of Registration to operate in the U.S. municipalities and commercial zones of such municipalities on the United States-Mexico border, today's dismissal of your application for operating authority in the cross-border long-haul trucking pilot program will not impact your current commercial zone Certificate of Registration. In addition, you may submit a new application to participate in the cross-border long-haul program at any time prior to the pilot program's termination.
