WASHINGTON, DC 20590

April 18, 2018

The Honorable John Thune
Chairman, Committee on Commerce,
Science, and Transportation
United States Senate
Washington, DC 20510

Dear Mr. Chairman:

This letter provides an update concerning the status of statutorily mandated rulemakings, as required under section 5307 of the Fixing America's Surface Transportation (FAST) Act.

The Federal Motor Carrier Safety Administration (FMCSA) has implemented 36 of the 43 sections of the Moving Ahead for Progress in the 21st Century Act (MAP-21) and completed 14 of the 20 rulemaking actions required by the FAST Act. Since the November 1, 2017, report, FMCSA has made the following progress:

- Initiated rulemaking associated with MAP-21 section 32918 requirements related to Financial Security of Brokers and Freight Forwarders.

The Department's rulemaking efforts are driven by the belief, consistent with Executive Order (E.O.) 13771, E.O. 13777, and E.O. 13783, as well as other legal authorities, that there should be no more regulations than necessary, and those regulations should be straightforward, clear, and designed to minimize burdens, consistent with safety. The Department also believes that public input is a critical part of the rulemaking process and has proactively sought out public comments on its regulatory review and rulemaking efforts. The Department anticipates using public input to decide on the best approach, consistent with the Department's regulatory philosophy, to meeting the Department's statutory obligations.

Enclosed is a chart that provides updated information for each of the rulemakings subject to the section 5307 requirement, including a description of actions taken to date, explanations for delays, and expected date of rulemaking completion.

MAP-21	32303	Commercial Driver's License Notification System		NPRM	TBD	Report to Congress issued as required by section 32303(c)(2)	Significant rule which would create an unfunded mandate for the states.	2126-ACXX
