Administration

The background of the entire page is a photograph taken from the perspective of someone inside a vehicle, looking out through a side mirror. The mirror shows a two-lane road stretching into the distance under a blue sky with light clouds. The road is flanked by dry grass and some trees. The right side of the image shows the white body of the vehicle and the mirror's frame.

Introduction

About the *Our Roads, Our Safety* Program

Our Roads, Our Safety is a safety education program to help drivers, pedestrians, and bicyclists operate safely around commercial motor vehicles. The program supports the Agency's core mission: reducing crashes, injuries and fatalities involving large trucks and buses. The program features a wide variety of materials, including infographics, tip sheets, radio PSAs, and digital ads, among others.

Introduction

Spread the Word: How to Use the *Our Roads, Our Safety* Toolkit

FMCSA encourages the industry, safety organizations, community groups, individuals and all stakeholders to share these important safety messages. Download and use digital assets in this toolkit on your website, social media platforms, and email. You may download and print the tip sheets for distribution at conferences, community fairs and other events. Each section of the toolkit features some additional ideas and tips for spreading the word.

Introduction

Partnership Opportunities

FMCSA welcomes the opportunity to work with organizations that believe in the importance of road safety. Partnership initiatives can include developing new campaign materials together, organizing shared events, or simply leveraging your platforms and networks to help distribute important safety messages. To explore partnership opportunities, please contact Shashunga Clayton, FMCSA Director of Outreach and Education at shashunga.clayton@dot.gov.

Display

This large-format design can be used as a poster or display at conferences or community events, or even projected on a wall. It's also proportioned to serve as a billboard.

Digital Assets

Infographics

A variety of infographics provide clear, simple messages about the specific operating challenges that buses and trucks face. You can share these through social media (see the sample messages in this toolkit) and email, and feature them on your website.

Sample Content

We encourage you to actively join the *Our Roads, Our safety* program by spreading the word about driving safely around large trucks and buses to all your friends, family and colleagues.

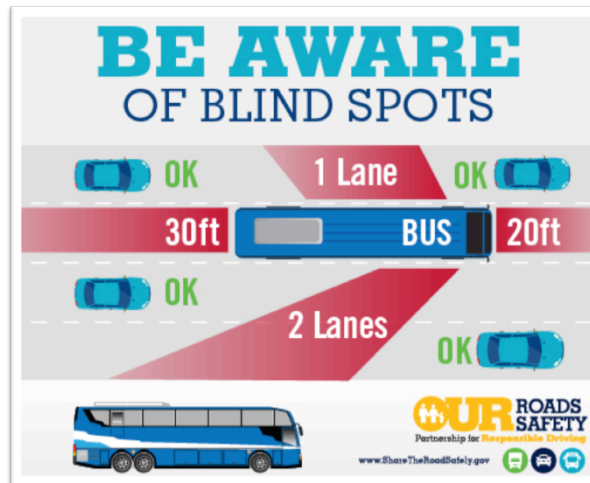

Download infographics [here](#)

Long Stops:

Suggested Facebook Post: Did you know a truck can weigh up to 80,000 pounds? That's 20 to 30 times the weight of a regular vehicle. Because of their weight, it takes trucks an extra long distance to stop. Be smart and don't cut off your bigger neighbors on the road! #OurRoads

Suggested Twitter Post: Did you know a truck can weigh up to 80,000 lbs? Imagine how long it takes to stop! Don't cut off your neighbors on the road. #OurRoads

www.ShareTheRoadSafely.gov

No Zones:

Suggested Facebook Post: Large trucks and buses have huge blind spots, or "No Zones." If you can't see the driver in the vehicle's side mirror, assume the driver can't see you! #OurRoads

Suggested Twitter Post: Large trucks and buses have huge blind spots, or "No Zones." If you can't see the driver, assume the driver can't see you! #OurRoads

Sample Content (Continued)

Your efforts to share content and graphics on social media could save a life!

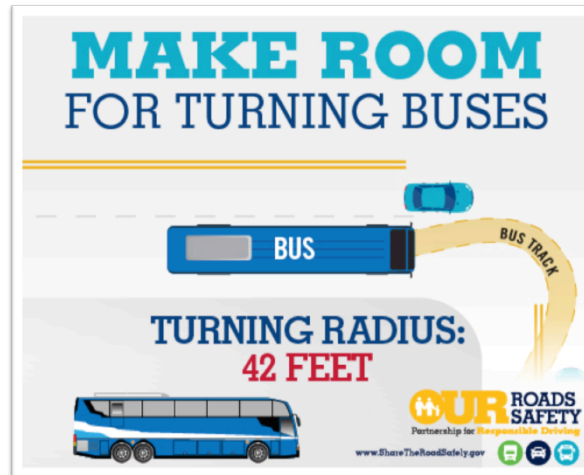

Download infographics [here](#)

Work Zones:

Suggested Facebook Post: 30% of fatal crashes in work zones involved at least one large truck. Stay alert, be aware of your surroundings, and obey all work zone signs and signals. #OurRoads

Suggested Twitter Post: 30% of fatal crashes in work zones involved at least one large truck. Stay alert and obey all work zone signs and signals. #OurRoads

www.ShareTheRoadSafely.gov

Wide Turns:

Suggested Facebook Post: Commercial vehicles require extra room to turn. If a truck or bus has its turn signal on, never try to squeeze by or get between the vehicle and the curb. #OurRoads

Suggested Twitter Post: Commercial vehicles require extra room to turn. If a truck or bus has its turn signal on, don't try to squeeze by! #OurRoads
